

EXPERIENCE

Shopify Theme Developer

Caloocan City, Metro Manila
January 2020 – Present (6+ Years)

- Architected and delivered 20+ custom Shopify themes and section-based components over 6 years using Liquid templating and the Online Store 2.0 framework, enabling merchants to manage dynamic storefronts through the theme editor — reducing client content update turnaround time by 40%.
- Enforced accessible, semantic HTML across all theme builds following WCAG 2.1 standards — implementing proper heading hierarchy, ARIA roles, and full keyboard navigability — consistently passing accessibility audits and improving usability across desktop and mobile.
- Established and maintained a scalable CSS architecture using BEM methodology across long-running client projects, eliminating naming conflicts between components, cutting stylesheet complexity by 30%, and reducing developer onboarding time for collaborative engagements.

EDUCATION

Senior High School

STI College Recto, Manila
2018 – 2019

- Graduated from Senior High School at STI College Recto, completing a structured academic program that built a strong foundation in core subjects, critical thinking, and professional readiness.
- Developed early exposure to technology and computer-based tools through STI's tech-oriented curriculum, sparking a keen interest in web development and digital problem-solving.
- Demonstrated consistent academic commitment throughout the program, contributing to group projects and collaborative learning activities that strengthened communication and teamwork skills.
